RESTRICTION REQUIREMENT

15.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-49, drawn to film-forming composition, classified in class 424, subclass 78.02.
- II. Claims 50-58, drawn to method of disinfecting tissue, classified in class 424, subclass 404.
- III. Claims 59 and 60, drawn to film-forming polymer, classified in class 525, subclass 279+.

16.

The inventions are distinct, each from the other because:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together, or they have different modes of operation, or they have different functions, or they have different effects. (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

17.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

18.

A telephone call was made to Nancy M. Lambert on August 08, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

19.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

20.
